

Maine Public Health Association

MAKE A DONATION TODAY

Health should not be determined by zip code, skin color, or status. It's about social justice, opportunity, and the conditions of people's daily lives. Environmental and policy factors impact choice.

The Maine Public Health Association is firmly established as the voice of public health across the state and the leader of policy solutions that address these critical social determinants of health.

Thanks to your support, MPHA and its many partners, have had a tremendous number of victories:

- Protected thousands of Maine children from the harmful effects of secondhand smoke
- Focused policy makers' attention on nutrition and physical activity resulting in menu labeling and bans on junk food advertising in schools
- Led efforts to protect the Fund for Healthy Maine - our state's primary source of prevention and public health funding
- Together, we have supported local leaders in every corner of Maine to be stronger, more skilled public health advocates

We know there is much more to be done. That's why MPHA is asking for your help to launch exciting new programs like the 2014 tobacco webinar series, education and networking opportunities for public health professionals and to continue our state lobbying and advocacy efforts. As healthcare reform rolls out and attention on delivery and payment of services continues to spark discussion, MPHA will be there to ensure that public health is a key part of the equation.

With your help, MPHA will not only be at the table, but at the forefront of these discussions, leading policy change that ensures public health and prevention are linked to primary healthcare and population health strategies are included all policy discussions.

I would like to contribute to the Maine Public Health Association

Please select a gift amount:

- \$50 \$100 \$250 \$500 \$1000 Other _____

Please select the type of gift you would like to make:
